If the delay is caused by the delay of a subcontractor of Seller and if such delay arises out of causes beyond the reasonable control of both Seller and the subcontractor, and without fault or negligence of either of them, Seller shall not be liable to Buyer in damages unless the articles or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit Seller to meet the required delivery schedule. Seller will notify Buyer in writing within ten (10) calendar days after the beginning of any such cause.

7. INVOICE AND PAYMENT

Unless specifically set forth in Seller's proposal or quote and accepted by Buyer the stated contract price shall include all charges for packing, shipping, hauling, storage, and transportation to the point of delivery. No separate or additional charges for these items will be accepted.

If no discount is offered, payment of invoices will be made within forty-five (45) days after the latest of the above. Unless freight and other charges are itemized, any discount shall be taken on the full amount of the invoice. Invoices shall be supported by such documents in such form as Buyer requests and shall bear such certification as may be required by law, regulations or the Order.

All payments are contingent on acceptance of the goods or services by Buyer. Seller shall issue separate invoices for each shipment showing the amount of material shipped. Payment shall be deemed to have been made on the date Buyer's check is mailed or payment is otherwise tendered. Seller shall promptly repay Buyer any amounts paid in excess of amount due Seller.

Invoices that do not agree with prices or other terms of the Order will be returned to Seller for corrections. Payment schedule shall commence upon receipt of the corrected invoice by Buyer.

If Seller is unable to obtain such a license, Seller shall, at its own expense, modify performance of this Order to eliminate the need for the infringing intellectual property. The arbitrator shall require exchange by the parties of (i) the name and, if known, address and telephone number of each person likely to have knowledge of relevant information, identifying the subjects of the information, and (ii) non-privileged documents, including those in electronic form, that are relevant to the issues raised by any claim, defense or counterclaim or on which the producing party may rely in support of or in opposition to any claim, defense or counterclaim. The arbitrator shall limit such production based on considerations of unreasonable expense, duplication and undue burden. These discovery exchanges shall occur no later than a specified date within 60 days following the appointment of the arbitrator. At the request of a party, the arbitrator may at his or her discretion order the deposition of witnesses. Depositions shall be limited to a maximum of three depositions per party, each of a maximum of four hours duration, unless the arbitrator otherwise determines. The arbitrator may allow such other discovery as he or she determines is reasonably necessary for a fair determination of the dispute. Any dispute or objections regarding discovery or the relevance of evidence shall be determined by the arbitrator. All discovery shall be completed within 120 days following the appointment of the arbitrator, unless the arbitrator otherwise determines.

- (b) If, subsequent to receipt thereof under the Order, (i) the information is published by the party furnishing it or is disclosed by the party furnishing it to others without restriction; or (ii) it has been lawfully obtained by the party receiving it from other sources, including the Government, provided such other source did not receive it due to a breach of this clause; or (iii) if such information otherwise comes within the public knowledge or becomes generally known to the public.

- (d) If the proprietary information is furnished orally, unless such proprietary information was identified as proprietary at the time of disclosure, reduced to writing, and marked proprietary within fifteen (15) days of original disclosure and such writing is forwarded to the receiving party and actually received within fifteen (15) days of original disclosure.
- (e) If such proprietary information is obligated to be disclosed under order of a court of competent jurisdiction, so long as prompt notice of the order is given to the other party.
- (f) If such proprietary information is disclosed with the written approval of the originating party.

The furnishing of any proprietary information by either party shall not be construed as granting to the other party either expressly, by implication, estoppel, or otherwise, any ownership or license right (other than the limited license to use the information internally for the purpose for which it was provided) under any invention, patent, trade secret, trademark, or copyright now or hereafter owned or controlled by the party furnishing same. The foregoing shall not impact

any license or ownership right in information identified and set forth elsewhere in this document.

Seller shall, upon Buyer's request or upon completion of this Subcontract, whichever occurs first, promptly at its option: (1) destroy all proprietary information furnished in connection with the Subcontract and certify such destruction; or (2) return all proprietary information furnished in connection with the Subcontract, together with all copies or reprints then in Seller's possession and control, and Seller shall thereafter make no further use of nor disclose to others any such data or documents or any information derived therefrom without Buyer's prior written consent.

(a) Definitions. As used in this clause—

“Access” means the ability or opportunity to gain knowledge of Government or Government-related data or any other data

collected or maintained on behalf of the United States Government under this contract.

“Cloud computing” means a model for enabling ubiquitous, convenient, on- demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This includes other commercial terms, such as on- demand self-service, broad network access, resource pooling, rapid elasticity, and measured service. It also includes commercial offerings for software-as- a-service, infrastructure-as-a-service, and platform-as-a-service.

“Government data” means any information, document, media, or machine readable material, regardless of physical form or characteristics, that is created or obtained in the course of official Government business.

“Government-related data” means any information, document, media, or machine readable material, regardless of physical form or characteristics, that is created or obtained by a contractor through the storage, processing, or communication of Government data. This does not include a contractor’s business records, e.g., financial records, legal records, or data such as operating procedures, software coding or algorithms that are not uniquely applied to the Government data.

“Spillage” means an unauthorized transfer of classified data or controlled unclassified information to an information system that is not accredited for the applicable security level of the data or information.

(b) Cloud security requirements. The Contractor shall adopt and maintain administrative, technical, and physical safeguards and controls that are required for the security level and services being provided, in accordance with the Cloud Computing Security Requirements Guide (SRG) (version in effect at the time of contract award) found at http://iase.disa.mil/cloud_security/Pages/index.aspx (Note: the new cyber incident reporting requirements of SRG section 6.4 become enforceable by the Government upon the effective date of the information collection governing the new reporting requirements (see DFARS case 2013-D018). However, this does not abrogate, limit, or otherwise affect the Contractor’s obligation to comply with any other cyber incident reporting or other reporting requirement that is contained in this contract).

(c) Limitations on access to, government data and Government-related data.

(d) The Contractor shall not access, use, or disclose Government data unless specifically authorized by the terms of this contract or a task order issued hereunder.

 - The Contractor shall ensure that its employees are subject to all such access, use, and disclosure prohibitions and obligations.
 - These access, use, and disclosure prohibitions and obligations shall survive the expiration or termination of this contract.
- (e) The Contractor shall use Government-related data only to manage the operational environment that supports the government data and for no other purpose unless otherwise permitted with the prior written approval of the Contracting Officer.
- (d) Records management.
- (1) The Contractor shall deliver to the Contracting Officer all Government data and Government-related data in the format specified in the schedule.
- (2) The Contractor shall dispose of Government data and Government-related data in accordance with the terms of the contract and provide the confirmation of disposition to the Contracting Officer in accordance with contract closeout procedures.

The Contractor shall notify the Government immediately of any requests from a third party for access to Government data or Government-related data, including any warrants, seizures, or subpoenas it receives, including those from another Federal, State, or Local agency, that could result in the disclosure of any Government data to a third party. The Contractor shall cooperate with the Government to take all measures to protect Government data from any loss or unauthorized disclosure that might reasonably result from the execution of any such request, warrant, seizure, subpoena, or similar legal process.
- (f) Spillage. Upon written notification by the Government of a spillage, or the Contractor's discovery of a spillage, the Contractor shall coordinate immediately with the responsible Government official to correct the spillage in compliance with agency-specific instructions.
