

20 March 2020

REFERENCE:

Memorandum for Defense Industrial Base from The Under Secretary of Defense, dated 20 March 2020

Memorandum of Identification of Essential Critical Infrastructure Workers During COVID-19 Response from the Director of Cybersecurity and Infrastructure Security Agency (CISA), U.S. Department of Homeland Security, dated 19 March 2020

SUBJECT: Essential Critical Infrastructure Workforce for COVID-19

ATTENTION: Valued SNC Supplier,

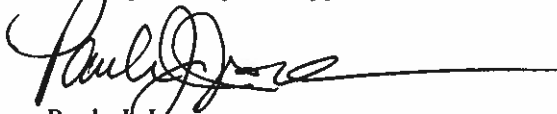

The work that Sierra Nevada Corporation (SNC) performs for our customers as part of the Defense Industrial Base (DIB) is essential to the nation's critical infrastructure. As per the President's Coronavirus Guidelines for America, "If you work in a Critical Infrastructure Industry, as defined by the Department of Homeland Security...you have a special responsibility to maintain your normal work schedule."

Under the referenced memoranda, the DIB is identified as a Critical Infrastructure Sector and the Essential Critical Infrastructure Workforce includes workers who support the products and services required to meet national security commitments to the Federal Government and the U.S. Military. This workforce includes SNC personnel and our subcontractors, such as yourself, who perform work under a contract to the Department of Defense.

SNC values our suppliers and acknowledges that we cannot meet the needs of our customers without the support of our suppliers. When complying with the intent of this letter and the referenced memoranda, be sure you are complying with the other guidelines for keeping you and your teams safe. Everyone should follow guidance from the Centers for Disease Control and Prevention as well as your state and local resources for limiting the spread of COVID-19

Please reach out to your SNC Procurement contact or supplierfeedback@sncorp.com with any questions or further inquiries.

Thank you for your support.
